PROFESSIONAL SUMMARY

Detail-driven and motivated Backend Engineer transitioning career into technical writing with extensive background in Python, Django, and API design. Experience working from remote locations, collaborative documentation, and distributed team configurations. Excellence at breaking down complex technical concepts into simple-to-consume, user-focused writing. Passionate about developer tooling, open-source software, and asynchronous communication. Excited to join the vision of GitLab by helping build world-class documentation as a globally distributed team member.

CORE SKILLS

• Python, Django, REST APIs
• Git, GitHub, Docs-as-Code workflows
• Postman, JSON, Markdown
• Software Development Lifecycle
• Technical Documentation & API Reference Writing
• Remote Collaboration Tools: Slack, Trello, Notion
• AWS (basic), Excel, Google Sheets
• AI-Powered Productivity (ChatGPT, Grammarly)

RELEVANT PROJECTS
Moving Truck Booking API (Capstone Project)
• Built a fully RESTful API using Django Rest Framework.
• Implemented JWT authentication, truck availability by location, and user reviews.
• Wrote and tested endpoint documentation using Postman.

Social Media API
• Developed backend features for users, posts, and comments with pagination and permissions.
• Ensured complete and clean API documentation with code examples.
• Followed versioning and style consistency across endpoints.

PROFESSIONAL EXPERIENCE

Freelance Data Entry & AI Training Specialist
Remotask, Appen, Cloudworkers — Remote
May 2021 – February 2024
• Contributed high-quality data and transcriptions for AI/ML model training.
• Followed detailed guidelines and maintained accuracy across annotation and labeling tasks.
• Collaborated remotely using tools like Slack and Notion to meet client deadlines.

Sales Representative
Viesta Consumer Limited
March 2020 – February 2021
• Maintained organized sales and customer account data.
• Strengthened communication and customer engagement skills.

IT Intern
Kenya Women Microfinance Bank (KWFT HQ)
January 2019 – May 2019
• Supported computer hardware maintenance, software installations, and end-user troubleshooting.

EDUCATION & CERTIFICATIONS
